

# DYNO CARBON

DYNO ADVENTURE  
AUTOMATIC BELAY

<b>Type:</b>	Automatic Friction Descent Controller
<b>Weight of device:</b>	10.5kg (18m)
<b>Length:</b>	12m & 18m
<b>Min working load:</b>	10 kg
<b>Max working load:</b>	150 kg
<b>Lifeline type:</b>	25 mm high use Vectran webbing
<b>Housing material:</b>	Carbon fibre composite
<b>Drum material:</b>	High-grade aluminium (anodised)
<b>Braking mechanism:</b>	Dual-action, soft torque apply, multiple redundancy
<b>Brake liner/brake shoes</b>	Stainless steel
<b>Maximum descent speed:</b>	2 m/s
<b>Module:</b>	High-grade aluminium (anodised)
<b>Anchorage:</b>	Multiple anchorage configurations
<b>Gearing:</b>	EN24 T electroless nickel plated
<b>Standards conformed to:</b>	EN241 :2011 Class A
